

U395-C smart wrist strap grounding (single loop) monitor

Product features

- Small and light, flexible installation and expansion;
- Can monitor 1 way dual loop wrist strap;
- Rewiring without adjustment of personnel position;
- The principle of resistance monitoring is used to ensure that the monitored object is reliably grounded;
- With sound and light alarm function;

Specification

smart wrist strap grounding monitor	U395-C
Power supply	Input: 9VDC/1A
Wrist strap monitoring resistance	≤35MQ (factory setting)
Operating environment	Anti-static workshop, -10-50°C
Maximum power consumption	<0.5W
Indicator status	Normal-green; Abnormal-red; Standby-orange;
Volume (mm)	55(L)*50(W)*25(H)mm
Weight (kg)	≈0.15KG
